Dm          A#                            F7+        C
used to think that i wasnâ€™t strong enough
Dm      A#        F7+        C
too afraid of really in love
Dm            A#                          F7+        C
something told me i could let go with you
A#                                           F7+        C
and thatâ€™s how i made my decision to give it a try
Dm         A#                F7+        C
i remember smiling the day we met
Dm            A#                            F7+        C
you were nervous cause you didnâ€™t know me yet
Dm            A#          F7+        C
glad i took the time to get to you
A#                                           F7+        C
cause i knew that it would be something i needed to do

Chorus:
Dm               A#          F7+    C
so please, hold me now
                                    Dm
cause weâ€™ve only got tonight
      A#          F7+        C
so, hold me now (now, now)
Dm                    A#                  F7+    C
i donâ€™t want to think that i was wrong
                       A#
â€˜bout what i found
F7+                  C
So, hold me now

Dm          A#                          F7+  C
Now that iâ€™ve given you all of myself
Dm        A#                      F7+        C
Need to know itâ€™s me and nobody else
Dm        A#                            F7+        C
Need to know the choice that we made is real
A#                                               F7+
   C
And that you are feeling the same way, the way that i feel
Dm         A#                    F7+        C
```

```
My emotions making it hard for me
Dm              A#                          F7+           C
Got me so into you i can hardly breathe
Dm                      A#                              F7+        C
My heart is pounding wishing youâ€™d let me know
A#                                              F7+          C
Now that iâ€™ve let you have me, you wont let me go

so please, hold me now
cause weâ€™ve only got tonight
so, hold me now (now, now)
i donâ€™t want to think that i was wrong
â€˜bout what i found
So, hold me now

A#                          Am
Baby, in your arms
Gm
Is the only place i feel i belong tonight
A#          Am
So, hold me
D#                                                      A#
Cause who knows what might happen after tonight
Am              Gm                      D#    C
And iâ€™m hoping this was right

so please, hold me now
cause weâ€™ve only got tonight
so, hold me now (now, now)
i donâ€™t want to think that i was wrong
â€˜bout what i found
So, hold me now

Please, hold me now
cause weâ€™ve only got tonight
so, hold me now (now, now)
i donâ€™t want to think that i was wrong
â€˜bout what i found
So, hold me now

Please, hold me now
cause weâ€™ve only got tonight

please, hold me now (hold me now)
cause weâ€™vw only got tonight
