Michael Jackson

You can look at them coming out the walls
You can look at them climbing out the bushes
You can find them when the letter s bout to fall
He be waiting with his camera on focus
Everywhere you seem to turn
there s a monster
When you look up in the air there s a monster
Paparazzi got you scared like a monster

And you re running
And you re running just to escape it
But they are gunning for the money

So they fake it
Everywhere you seem to turn

When you look up in the air there s a monster
When you see them in the street
