Has anybody seen my Chevy

It is gone from where I shut it down

I ve been told that it was very heavy

When I used to drive it into town

So if you see it won t you call me promptly

It is more than just a question of time

It was two-tone and full-blown

And a dedicated friend of mine

Has anybody here seen Jesus

He is gone from where I laid him down

He was almost dead from helping people

And he asked me for a ride to town

So if you see him won t you call me promptly

Oh it s more than just a question of time

He was two-tone and full-blown

And a dedicated friend of time

They all are

Two-tone and full-blown

And dedicated friends of mine
