Lrics:

Til the end, I will be with you!
We will go where our dreams come true!
All the times that we have been through!
You will always be my best friend!

Here we are on a new adventure!
Danger lurks somewhere in the darkness!
We are set for surprises! Even battle!
We re a team! No one better mess with us!

If we stand as one, there s nothing to fear!
We ll beat the darkness, and we ll stay right here!
Time after time, that s how it will be:
Just you and me!

Til the end, I will be with you!
We will go where our dreams come true!
All the times that we have been through!
You will always be my best friend!

Mmm! Yeah!

Good friends are those who stick together!
When there s sun and in the heavy weather!
Yeah!

Smile after smile, that s how it will be:
Just you and me!

Til the end, I will be with you!
We will go where our dreams come true!
All the times that we have been through!
You will always be my best friend!

Remember when we first met?
We had such fun! Oh, I never will forget!
Since then, the times are so good!
We've always stuck together like best friends should!

Til the end, I will be with you!
We will go where our dreams come true!
All the times that we have been through!
You will always be my best friend!

Til the end, I will be with you!
We will go where our dreams come true!
All the times that we have been through!
You will always be my best friend!

Til the end, I will be with you!
We will go where our dreams come true!
All the times that we have been through!
You will always be my best friend!
