Intro: D Em7 C9 G x2

Verse: D Em7 C9 G

Doesn t matter how far apart we are now  
you can add up all the miles in between  
if you take a good look all around now  
all you see is you and me  
when i look at myself in the mirror  
i see you standing there smiling at me  
and i m right back at the beginning  
lost inside this memory

A C x2

i won t ever let go, all that i want to hold onto

D Em7 C9 G

we belong together  
like the moon and stars at midnight  
and we ll be strong forever  
cuz we belong together  
whoa, whoa.. whoa whoa

doesn t matter how long that it takes you  
cuz i ll always be right by your side  
and even when darkness awaits you  
i ll be there to be your light

A C x2

it s a hard lonely road

when you re standing outside in the cold

we belong together  
like the moon and stars at midnight  
and we ll be strong forever  
cuz we belong together  
whoa, whoa.. whoa whoa

**F C Am G Am G**

sometimes it s hard to learn to let go

**F C Am D**

life always knows the right moment to show you what you need

and we belong together  
like the moon and stars at midnight  
and we belong together  
like the moon and stars at midnight  
we ll be strong forever  
cuz we belong together  
whoa, whoa.. whoa whoa
