Your Love

This song is from Jim Brickman's Destiny (1999) album. I heard this song the other day, and searched UltimateGuitar for the chords. I found one version, however the chords didn't sound quite the same. Well, here's my very first attempt at tabbing a song. I tabbed this while watching piano covers of the song on Youtube. If there are mistakes, please tell me so I can fix and improve the chords. I'm not quite sure about the inversions, with all these different bass notes!

Key of C, modulates to Eb maj.

Performed by: Jim Brickman with Michelle Wright
