

Dancing In The Starlight

Mick Jagger

C#

I was tossing and a turning

B

Like a ship out in the storm

F#

And I could not feel the spirit

E

There was nothing there at all

C#

And I could not dial the number

B

And I could not make the call

F#

Dancing in the starlight

E

Dancing in the strangest forms

F#

And I could not feel the spirit

E

Was a thousand miles off course

C#

Stumbling in the twilight

B

There was no one there at all

F#

I was groping in the darkness

E

Seeing dangers in the port

C#

Tortured into silence

B

My back against the wall

F#

Dancing in the starlight

E

Swirling in the walls

F#

Just like Venus on the ocean

E

The figures on the wall

(C# F# C# F# C# E)

C# **F#**
If you don't take risks
C# **F#**
If you don't take a chance
 E
You're bound to fall

Oh yeah sugar

C# **B** **E**
You will surely fall

C#
Crying for salvation
B
There was nothing there at all
F#
I could not dial the number
 E
And I could not make the call

F#
Dancing in the starlight
E
The figures on the wall
F# **B** **E**
You will surely fall

Dancing in the starlight

C# **B** **E**
You will surely fall

C# **B** **E**
You will surely fall
