When Do We Stop Starting Over
Mickey Newbury

When Do We Stop Starting Over

```
G#          G#7     C#          G#
Over and over, so many times
Fm             Bb7        Eb
We ve started over again
   G#            G#7            C#            G#
So careful to fit all the pieces back together
                Bb7        Eb
So carelessly thrown to the wind

   G#                                    G#7
And words only spoken in moments of anger
      C#                        G#
But remembered long after they re said
   C#            Eb          G#          C#
In time will destroy all and leave us forever
 G#             Eb         G#
Alone in our own empty beds
```

When do we stop starting over
We ve started over before
When do we stop slowly killin one another
With words and at times even more

We must forgive and for all that has happened
Forget what can keep us apart
And start learning now how to trust one another
And stop breaking each others hearts
```
C#               G#
```
Stop starting over
