

Never Been Out West  
Micky & The Motorcars

C Fmaj7 G C  
Well they say that the mountains touch the sky  
Am Fmaj7 G C  
Far away out west of the great divide  
C Fmaj7 G C  
And there s fertile fields and valleys down below  
Am Fmaj7 G C  
And I m telling you brother we d be fools not to go

(chorus)

Fmaj7 C G  
And I ve never been out west he said  
Fmaj7 C G  
It always seemed so far away  
Em Fmaj7 C  
And it s just a direction I guess  
Dm C , Em , Fmaj7 , G ,  
C  
And I m getting too old waiting around for someday||

Well the dreams they faded fast as the trucks rolled by  
And it seemed we shared a longing deep inside  
And I said you ve got nothing to lose girl and we ve got room for one more  
She put her hand in mine and we left without locking the door

(chorus)

I ve never been out west she said  
It always seemed so far away  
And it s just a direction I guess  
And I m getting too old waiting around for some day

Well the rain is relentless in Seattle  
And when it came it was more than I could handle  
And did I watch her fall or did she watch me let her go  
I ve got no one and nothing left to lose here anymore

And I d never been out west she read  
It always seemed so far away  
And it s just a direction I guess  
And I m getting too old waiting around for some day
