Well they say that the mountains touch the sky

Far away out west of the great divide

And there s fertile fields and valleys down below

And I m telling you brother we d be fools not to go			

(chorus)

Gmaj7 D A
And I ve never been out west he said

And I m getting too old waiting around for someday||

Well the dreams they faded fast as the trucks rolled by
And it seemed we shared a longing deep inside
And I said you ve got nothing to lose girl and we ve got room for one more
She put her hand in mine and we left without locking the door

(chorus)

I ve never been out west she said
It always seemed so far away
And it s just a direction I guess
And I m getting too old waiting around for some day

Well the rain is relentless in Seattle
And when it came it was more than I could handle
And did I watch her fall or did she watch me let her go
I ve got no one and nothing left to lose here anymore

And I d never been out west she read
It always seemed so far away
And it s just a direction I guess
And I m getting too old waiting around for some day
