

**Sans Soleil**  
**Miike Snow**

Really easy song, just repeat three chords throughout song the same as intro and verse. You should be able to work the rest out yourselves.

Capo 1

Intro  
D G C x2

D G C  
Morning bled at the water s edge  
D G C  
The city was bringing me down  
D G C  
And my mind was on a ledge  
D G C  
Saying who s gonna help you now?

Without sun we pull what feeds us from the heat that s in-between us  
How can we expect to build a boat  
Seagulls running everything

Hard. You make it hard. Hard.

It s all the opposite I think  
The ladder runs side to side  
Enough to make you want a drink  
But there s no place to hide

Watching shadows within shadows within shadows,  
They hide their dark self from the sun,  
And her voice is just a memory you re not fooling anyone

Hard. You make it hard. Hard.

Hard. You make it hard. Hard.
