

Song For No One
Miike Snow

The intro tab is very easy to find, but I couldn't find the chords for the rest of the song anywhere, so here you go...

F **Am** **F** **Am**

I met you on the palisades The sun was spilling kerosene

F **Am** **F** **C**

And I was feeling wide awake Girl, you can be so obscene

F **Am** **F** **Am**

And when you sang a lullaby A missionary called your name

F **Am** **F** **C**

You disappeared and hopped a flight For the Serengeti Plain

Dm **Em** **Dm** **Em**
Tell everyone you know Open up the door

Dm **Em** **Dm** **G** **F**
Tell everyone you know Open up the door

C **F**
When your love has gone

C **F**
You carry on

C **F**
This is her song

C
This is a song for no one

Second verse/chorus are the same. Enjoy!
