Tuning: Standard

It s one progression throughout all the song:

**E A A B**

Whats a matter  
with going places?  
Take that gross look off your faces  
Empty loving makes me seasick  
What youre here for, I dont need it

I ll say nothing on your microphone  
Till you swear to take me home  
Theres a one foot boy eleven stone  
He s sitting on my shoulder  
Im too scared to look away,  
He comes here almost everyday  
And everyday I push him off and tell him boy were over

MY OH MY  
I think my mind is gone  
I m left here wondering  
Was I crazy all along?  
What do I do?  
Nothing left but pray  
Gonna shoot somebody  
Help me drive this craziness away  
Im happy on my own

One foot boy!  
One foot boy!  
One foot boy!  
One foot boy!

Say you like me,  
But not with changes?  
Shut up and forget it  
These are my faces  
All these colours  
That surround me  
All these places

Only drown me

I ll say nothing on your microphone  
Till you swear to take me home  
Theres a one foot boy eleven stone  
He s sitting on my shoulder

Im too scared to look away,  
He comes here almost everyday  
And everyday I push him off and tell him boy were over

MY OH MY

I think my mind is gone  
I m left here wondering  
Was I crazy all along?  
What do I do?  
Nothing left but pray  
Gonna shoot somebody  
Help me drive this craziness away  
Im happy on my own

I think my mind is gone  
I m left here wondering  
Was I crazy all along?  
What do I do?  
Nothing left but pray  
Gonna shoot somebody  
Help me drive this craziness away  
Im happy on my own

Whats a matter  
with going places?  
Take that gross look off your faces  
Empty loving makes me seasick  
What you here for, I dont need it

One foot boy!  
One foot boy!  
One foot boy!  
One foot boy!

One foot boy!  
One foot boy!  
One foot boy!  
One foot boy!

Happy on my own
