Tuning: Standard

It s one progression throughout all the song:

E A A B

Whats a matter
with going places?
Take that gross look off your faces
Empty loving makes me seasick
What youre here for, I dont need it

I ll say nothing on your microphone
Till you swear to take me home
Theres a one foot boy eleven stone
He s sitting on my shoulder
Im too scared to look away,
He comes here almost everyday
And everyday I push him off and tell him boy were over

MY OH MY
I think my mind is gone
I m left here wondering
Was I crazy all along?
What do I do?
Nothing left but pray
Gonna shoot somebody
Help me drive this craziness away
Im happy on my own

One foot boy!
One foot boy!
One foot boy!
One foot boy!

Say you like me,
But not with changes?
Shut up and forget it
These are my faces
All these colours
That surround me
All these places

Only drown me

I ll say nothing on your microphone
Till you swear to take me home
Theres a one foot boy eleven stone
He s sitting on my shoulder

Im too scared to look away,
He comes here almost everyday
And everyday I push him off and tell him boy were over

MY OH MY
I think my mind is gone
I m left here wondering
Was I crazy all along?
What do I do?
Nothing left but pray
Gonna shoot somebody
Help me drive this craziness away
Im happy on my own

I think my mind is gone
I m left here wondering
Was I crazy all along?
What do I do?
Nothing left but pray
Gonna shoot somebody
Help me drive this craziness away
Im happy on my own

Whats a matter
with going places?
Take that gross look off your faces
Empty loving makes me seasick
What you here for, I dont need it

One foot boy!
One foot boy!
One foot boy!
One foot boy!

One foot boy!
One foot boy!
One foot boy!
One foot boy!

Happy on my own
