Let The Moon Get Into It
Mike Doughty

```
-----------------------------------------------------------------------
                         SONG NAME - Band Name
-----------------------------------------------------------------------
```
Tabbed by: Jack
Email: lighter_high@yahoo.com

Tuning: Standard

Use the bar form of each chord and only play the two root notes!!!

(**G F**)x4

G F   **G**
  I know that smile anywhere
        F   **G**
  Only less than I know that stare
              F   **G**
  But do you know how you get into me
            F   **G**
  Locking breath that easy

   F   **G**
  I know the way your fingers cross
              F   **G**
  When you move an inch I feel the loss
            F   **G**
  But if I only spoke
          F   **G F G**
  If you only heard one note

                  F   **G**
  Then when the sun goes down
                    F   **G**
  We-ll let the moon get into it
                    F   **G**
  Let all the lights get low
                        F   **G**
  Feel the side of your eyes they go

                  F   **G**
  Then when the sun goes down
                F   **G**
  I find a way to get rid of it
                  F   **G**
  Just hold on my tongue, I know

```
                    F     (G F)x2  G
It wont mean a thing

                        F
I walk against my fears
          G
Every step on the ground
          F                   G
And all the in betweens
                          F
Who knew the dark make you see
      G                     F          (G F)x2  G
The shape of my heart and every beat

                  F              G
Then when the sun goes down
                      F            G
We-ll let the moon get into it
                    F         G
Let all the lights get low
                          F            G
Feel the side of your eyes they go

                  F              G
Then when the sun goes down
                  F                    G
I find a way to get rid of it
                    F              G
Just hold on my tongue, I know
                  F      G F G
It wont mean a thing

                  F      G F G
It wont mean a thing

                  F
It wont mean a thing
