D A# F C
Now everything is upside down
D A# F C
Everthing has got a shade of blue
D A# F C
I don t know if it s something that ll pass away
D A# F C
Or something that I gotta get used to

I don t wanna have to think about it anymore
I want to lock it all away in my loft
How can you stand there lookin down upon me now
How can you tell me everthing s my fault

(Chorus)

D# A#
Every now and then I think about what might ve been
G# G
But that only brings me down again

(Chorus)
