

Open My Door  
Mike McClure

**E**  
Hey I ve been ridin like a space cowboy  
**E B A**  
Into the center of the sun  
**E**  
Circlin for ages  
**E B A**  
With the prophets and sages until they all bleed into one

Refrão -----

**F#m A E**  
I ain t searchin for the answers no more  
**F#m E**  
Because that just leads to more questions  
**F#m A E**  
And if you think you ve got this life all figured out  
**A B**  
I m always open for suggestions  
**E**  
You just might open my door  
-----

Hey I ve been stumblin in the dark for your switches  
Yeah, to somehow flood the light  
Constantly creeping, but never quite reaching  
Yeah the end is just out of my sight

Chorus

Open my door
