Hoping to find some kind of sign  
**D A E A**  
His soul s on the line and he s needing a spark

A dark eyed angel, dressed all in white  
Steps out of the night and takes his hand  
Said you must be the one whose reason has come  
When it s all said and done then we ll understand

Into the night like two sparrows in flight  
Out of everyone s sight, through the cold  
To an old man most dead, still he raises his head  
And the last word he said is that the story s been told

Said blessed is the man whose hearing a callin  
And twice blessed is he that answers that call  
For his hand will stand when the mountains are falling  
But he may spend some time with his back to the wall

Repeat last verse
