B E  
I ll take off on an everyday ride  
C#m F#m  
I ll lay down by the river  
B E  
I ll wake up on the other side  
-----

I see pieces of my life  
And they re like leaves fallin down  
Winds of change have been blowin  
Blowin them all around

(Chorus)

I believe, I believe in the power  
Power of this coming day  
Now sun won t you shine on  
Shine all my blues away

And I ll be tappin the tip of my walkin stick  
Down the middle of your red dirt road  
And get to the end, and I come back again  
And I set down my heavy load

(Chorus)

You can play regular E & B chords, but these chords give it more of a jazz sound.
