

Blue Night

Mike Oldfield

Intro: Dm C F Am Dm F

To the whole room her eyes are numb  
As she reads from a true love story  
From the pages of a book, her lover comes  
Her heart bleeds, it s a true love story

Misty shape in the window by her bed  
Dreaming on what she s read  
Hero takes her hand and leads her through  
Who knows what this night will do

Only in the blue night, he comes to her  
Only in the blue night

That s when the whole night belongs to her  
Only in the blue night

I see a dark face by the moon s glow  
As she reads from a true love story  
Beckoning hand, scratching at the window  
Her heart bleeds, it s a true love story
