Sailing
Mike Oldfield

```
INTRO
******
C G
```

----
verse 1
****
```
C             G
Let me out, I can t breathe
                        C
Gotta get out of this concrete hole
C           G
I m wrecked and I m decked
                           C
I ve gotta break free before I lose control
```

```
C              G
Cast the lines away
                            Am
From the dock at the harbour bay
              G
It s a fine bright day
                       F
And the wind is blowing our way
```

verse 2
****
```
C             G
Set me free, I can t be
                      C
Locked in a cage before I loose my mind
C           G
I m Wired, And I m tired
                          C
Gotta lose my chains and leave it all behind
```

```
    C              G
So cast the lines away
                             Am
From the dock at the harbour bay
                               G
All those cares and worries and woes
                             F
You can save them for another day
            C  G     G  C
Because we re sailing, sailing
         C  G      G  F
Yes we re sailing, sailing

-------------------------------------------------------
verse 3
********
C              G
Give me space, I m on fire
                         C
Banging my head against a hard brick wall
C              G
And I m gone, so long
                           C
You can leave a message but I ll never call

-------------------------------------------------------

C              G
Cast the lines away
                             Am
From the dock at the harbour bay
        C           G
It s a fine bright day
                        F
And the wind is blowing away
        C  G     G  C
Lets go sailing, sailing
         C  G      G  F
Yes we re sailing, sailing

-------------------------------------------------------
GUITAR SOLO
***********
-------------------------------------------------------

C              G
```

```
Cast the lines away
                                    Am
From the dock at the harbour bay
                                   G
There s no cares no worries no woes
                          F
And the wind is blowing away
          C  G     G  C
Lets go sailing, sailing
            C  G     G  F
Yes we re sailing, sailing
C  G      G  F
sailing, sailing

----------------------------------------------------
BRIDGE
*******
C                                                   G
   You know that if you want to come with me

We can sail away
C
   Cast the line
                    G
If you ve got time, come with me baby
F
Ohh Ohhhh
C                                   G
   You know if you don t like it

You can ride inside
            C
If you like this is were you hide
             G
Ahhh you can leave it all behind
            F
Come on in, catch a line
C          G
Wind me in, Wind me in oh yea
      C
Ohh Yeaa
G         F
Whooooo  Ahhhhh
C  G            G  C
Sailing, Ow Ow sailing
C  G      G  F
Sailing, sailing

C       G      C

This is a cool song from his new cd
```

ENJOY..........
