I was born of 1959 that ll be the day that rock n roll died
F#m Bsus4
Far away on a dark and stormy night
G D/F# Em7 D
Brought into the new decade, the 60 s and her pearly gates
F#m Bsus4
A hard rain fell and the times forever changed
D F#m
In the back of a car with the wind in our hair
E F#m
Speeding down the road going anywhere
D Bm E Esus4 E
Was it true we were really going nowhere

G D/F# Em7 D
And 68 rang like a ricochet the world arose to a nightmare day
F#m Bsus4
Some people found their voice and a world to change
G D/F# Em7 D
One small step for man was one giant step for mankind
F#m Bsus4
How I wish that we could walk that way tonight
D F#m
On a Woodstock field in the heat of the night
E F#m
Rock n roll music defined the times
D Bm E Esus4 E
The sound of generations collide

A E
These moments in time
Bm D A E
Live on forever in my mind
Bm D A E
Even though we ve said goodbye
Bm D E Esus4 E
Live on forever in my mind

And the 70 king of rock n roll
In Gracelands lost his throne
There won t be any comebacks tomorrow
No Elvis, Beatles or the Rolling Stones

Why they were taken away? God only knows
We formed a band we were haunted by their ghosts
I remember it now like it was yesterday
Playing those guitars at a frantic pace
Somehow we got lost along the way

Through the London streets in a taxi cab
A radio played an epitaph
Imagine, the dream is over
Oh I've been silent way too long
You never thought I knew what was going on
You probably think that you were in this song
The tragedies behind the dreams
Believe the truth and the honesty
I have seen the dirt and the glory
