EM                                              G
For those who dont know me I can get a bit crazy
                    EM                    A
Have to get my way 24 hours a day
G
Cause Im hot like that
EM                                        G
Every guy everywhere just gives me mad attention
                        EM                    A
Like Im under inspection I always get the 10s
G
Cause Im built like that
Em                                    G
I go through guys like money flyin out their hands
D                                        A
They try to change me but they realize they cant
Em                                    G
And every tomorrow is a day I never planned
D                                A
If youre gonna be my man understand
```

(Chorus)
```
EM                          G

EM                          G

I cant be tamed
```

```
EM                                              G
If there was a question about my intentions, Ill tell ya
                                EM
Ill tell ya Im not here to sell ya
                A          G
Or tell ya to get to hell
EM                                        G
Im like a puzzle but all of my pieces are jagged
                                                    A
If you can understand this, we can make some magic
G
Im on like that
```

```
Em                                        G
I wanna fly I wanna drive I wanna go
D                                    A
I wanna be a part of something I dont know
Em                                        G
And if you try to hold me back I might explode
D                            A
Baby by now you should know

[Chorus]
EM                          G
I cant be tamed, I cant be saved
D                        A
I cant be blamed, I cant, cant
EM                          G
I cant be tamed, I cant be changed
D                        A
I cant be saved, I cant be (cant be)

Em                              G
Im not a trick you play, Im wired a different way
D                                    A
Im not a mistake, Im not a fake, Its set in my DNA

D                                            A
I wanna be a part of something I dont know
Em                                        G
And if you try to hold me back I might explode
D                                        A
Baby by now you should know

[Chorus]
EM                          G
I cant be tamed, I cant be saved
D                        A
I cant be blamed, I cant, cant
EM                          G
I cant be tamed, I cant be changed
D                        A
I cant be saved, I cant be (cant be)
I cant be tamed
