Capo 1

intro

D, **F**, **C**, **G** (same chords throughout)

```
 D               F              C
Its been like this from the start
                         G
One piece after another to create my heart
D               F              C
You messed up the game for being smart
                   G
Stand here, sell this, and hit your mark

        D                 F
But the sound of the steel
                             C
it will crush, and it will grind
                   G
It will scream who am I, to decide my life
 D                 F
But in time it will die, they ll be nothing left inside
      C           G                        D
just rush and metal that was never even mine
         F         C              G
I will scream, but im just this hallow shell
D       F           C
Waiting here, begging please
 D                   C
God set me free, so I can feel HEY

 D               F            C
Stop trying to live my life for me
                     G
I need to breath, im not your robot
 D                 F                 C
Stop telling me im a part of this big machine
                   G
Im breaking free, cant you see
       D           F
I can love, I can scream
```

```
         C                    G
Without somebody else operating me
 D            F               C
You gave me eyes, so now i see
              G
Im not your robot, im just me

D, F, C, G

All this time, Ive been misled
There was nothing but cross-wires in my head
Ive been taught that what I feel doesn t matter at all
so you say its real
I will scream, but im just this hallow shell
Waiting here, begging please
set me free, so I can feel HEY

Stop trying to live my life for me
I need to breath, im not your robot
Stop telling me im a part of this big machine
Im breaking free, cant you see
I can love, I can speak
Without somebody else operating me
You gave me eyes, so now i see
Im not your robot, im just me
Im not your robot, im just me
Im not your robot

I will scream, but im just this hallow shell
waiting here, breaking free
set me free, so I can feel HEY
Stop trying to live my life for me
I need to breath, im not your robot
Stop telling me im a part of this big machine
Im breaking free, cant you see
I can love, I can speak
Without somebody else operating me
You gave me eyes, so now i see
Im not your robot, im just me
Im not your robot, im just me
Im not your robot
