Capo 1

intro

F#, **A**, **E**, **B** (same chords throughout)

```
 F#                A              E
Its been like this from the start
                         B
One piece after another to create my heart
F#                A               E
You messed up the game for being smart
                   B
Stand here, sell this, and hit your mark

      F#                 A
But the sound of the steel
                              E
it will crush, and it will grind
                 B
It will scream who am I, to decide my life
 F#               A
But in time it will die, they ll be nothing left inside
     E            B                       F#
just rush and metal that was never even mine
          A        E            B
I will scream, but im just this hallow shell
F#        A              E
Waiting here, begging please
 F#                        E
God set me free, so I can feel HEY

 F#               A              E
Stop trying to live my life for me
                     B
I need to breath, im not your robot
 F#                  A               E
Stop telling me im a part of this big machine
                 B
Im breaking free, cant you see
       F#          A
I can love, I can scream
```

```
        E                   B
Without somebody else operating me
 F#              A                   E
You gave me eyes, so now i see
            B
Im not your robot, im just me

F#, A, E, B

All this time, Ive been misled
There was nothing but cross-wires in my head
Ive been taught that what I feel doesn t matter at all
so you say its real
I will scream, but im just this hallow shell
Waiting here, begging please
set me free, so I can feel HEY

Stop trying to live my life for me
I need to breath, im not your robot
Stop telling me im a part of this big machine
Im breaking free, cant you see
I can love, I can speak
Without somebody else operating me
You gave me eyes, so now i see
Im not your robot, im just me
Im not your robot, im just me
Im not your robot

I will scream, but im just this hallow shell
waiting here, breaking free
set me free, so I can feel HEY
Stop trying to live my life for me
I need to breath, im not your robot
Stop telling me im a part of this big machine
Im breaking free, cant you see
I can love, I can speak
Without somebody else operating me
You gave me eyes, so now i see
Im not your robot, im just me
Im not your robot, im just me
Im not your robot
