I m not sure if it s 100% correct, but it sounds pretty ok to me!

Bm
I ve seen it all before
                 A   **Bm**
The people and the bars there in
Bm
doesn t turn me on no more
                   A   **Bm**
It s a place already done and been
Bm
Sometimes I gotta take a stand
             A   **Bm**
gotta act or I won t proceed
Bm
Which part of this don t you understand
                  A   **Bm**
Which part of me is hard to read

Bm   **Em**   **D**
It would kill me If I stay here
     A   **Bm**
Maybe kill me If I go
       Em   **D**
I rather take the road less traveled
        A   **Bm**
Than face shit I already know.
        Em   **D**
I had my share of good and bad years
      A   **Bm**
But I just can t stick around
        Em   **D**
It would kill me if I stay
          A
I hope you understand me...
             Bm
why I m leaving town

Bm
no motivation here
               A   **Bm**

When everybody is all the same
Bm
Too much boredom Too much fear
                                        A   **Bm**
And I m sick off all this name and shame
Bm
I can t take it anymore
                    A   **Bm**
Don t like the person I ve become
Bm
need a new place to explore
                                A   **Bm**
Something different than where I m from

Bm   **Em**   **D**
It would kill me If I stay here
        A   **Bm**
Maybe kill me If I go
            Em   **D**
I rather take the road less traveled
                A   **Bm**
Than face shit I already know.
            Em   **D**
I had my share of good and bad years
        A   **Bm**
But I just can t stick around
                Em   **D**
It would kill me if I stay
                    A
I hope you understand me...

Bm
But everyone s afraid of going backwards to degrade
A   **F#**
Everyone s afraid of the strange
Bm
But if we only live life once
Bm
Then I ve just got to live mine now
A   **F#**
And it s gotta be a life in change...
F#
in change
                            Bm
That s why I m leaving town

Bm   **Em**   **D**
It would kill me If I stay here
        A   **Bm**
Maybe kill me If I go
            Em   **D**
I rather take the road less traveled
                A   **Bm**

```
Than face shit I already know.
        Em                  D
I had my share of good and bad years
      A                 Bm
But I just can t stick around

It would kill me if I stay
          A

              Bm
why I m leaving town
