Until they find you something that cures

Bm
I was saved by the bell
G
or rather saved by hell
A
Because it didn t kill me
G
no it rather drilled me
Bm
To be doing well

My friends look forward to friday night
While I am anxious
for the weekend fights
In a small apartment
there s nowhere to run
When chaos has begun
I hold my ears to dull the noise
But I can still hear your loud voice

I hide under my bed til it s gone
Why can t you get along?

I was saved by the bell
or rather saved by hell
Because it didn t kill me
no it rather drilled me
To be doing well

I was saved by hell
and now I m doing well
It didn t kill me then
It will not kill me now.
