The only troubles I have are yours

A **Bm**

Please just make them end

A **Bm**

Until they find you something that cures

A **F#m**

I hide away at friends

Bm

I was saved by the bell

G

or rather saved by hell

A

Because it didn't kill me

G

no it rather drilled me

Bm

To be doing well

My friends look forward to friday night

While I am anxious

for the weekend fights

In a small apartment

there's nowhere to run

When chaos has begun

I hold my ears to dull the noise

But I can still hear your loud voice

I hide under my bed til it s gone
Why can t you get along?

I was saved by the bell
or rather saved by hell
Because it didn t kill me
no it rather drilled me
To be doing well

I was saved by hell
and now I m doing well
It didn t kill me then
It will not kill me now.
