Bm

To be doing well

My friends look forward to friday night

While I am anxious

for the weekend fights

In a small apartment

there s nowhere to run

When chaos has begun

I hold my ears to dull the noise

But I can still hear your loud voice

I hide under my bed til it s gone Why can t you get along?

I was saved by the bell or rather saved by hell Because it didn t kill me no it rather drilled me To be doing well

I was saved by hell and now I m doing well It didn t kill me then It will not kill me now.
