or rather saved by hell

**Bb**

Because it didn t kill me

**G#**

**Cm**

To be doing well

My friends look forward to friday night

While I am anxious

for the weekend fights

In a small apartment

there s nowhere to run

When chaos has begun

I hold my ears to dull the noise

But I can still hear your loud voice

I hide under my bed til it s gone  
Why can t you get along?

I was saved by the bell  
or rather saved by hell  
Because it didn t kill me  
no it rather drilled me  
To be doing well

I was saved by hell  
and now I m doing well  
It didn t kill me then  
It will not kill me now.
