

**Bullfighter Jacket**  
**Miniature Tigers**

The Miniature Tigers play it with a capo at the second fret so that's how I'm tabbing it,  
but you can play without it using a F# and F#SUS barre. Occasionally they will hammer  
on the E to make it an E6 and the Esus to make it an A but you will have to figure that  
out yourself.

This song only has two chords until the very end
