Standard tuning (maybe...):

e]---
B]---
G]---
D]---
A]---
E]---

Symbols:

[7] : artificial harmonic

Pretty fun song to bang n jam to, I even threw in chord names for those interested over the lines (I m not sure about the B5 (I actually don t know what all the chord names are besides Em... ^.^;), so if someone knows the correct name, email me or the GT people and have them fix it, please).

Riff A:

A5 A5 A5 B5

```
|-----|
|-----|
|-----|
|---7--7--7--9-----[7]---[9]----|
|---7--7--7--9-----|
|---5--5--5--7-----|
```

Riff B:

A5 A5 A5 B5

```
|-----|
|-----|
|-----|
|---7--7--7--9-----|
|---7--7--7--9-----|
|---5--5--5--7-----|
```

This s actually a pretty simple song, with one main riff and two other notes; just use

those two riffs over and over again where they re supposed to be and you ll get the timing and arrangement easily enough, with a bit of practice. Now, I can t figure *exactly* what those other two notes are (guitar or samples), so this is the closest I can come up with, two artificial harmonics that might get close to what they are. In any case, the two chords sound about right, soooo... enjoy! =)
