

People Change

Mipso

G Am C G Am C x2

Maybe in ten years  
You ll call me on your telephone  
Wondering if I m all alone  
Remember how we knew each other?  
In ten years, everyone s moved down the line  
And we ve all ended up fine  
I no longer know your number  
I used to love you like the world would end  
I used to love you like a child  
The thing about people is they change  
When they walk away

We used to talk real slow  
About the things that no one knows  
I hate when people bring flowers  
Trapped in glass their final hour  
And life rolls, it s all so fast until it slows  
We cried that night in Carrboro  
Realized we were letting go  
I used to love you like the world would end  
I used to love you like a child  
The thing about people is they change

G Am C  
When they walk away
