(x3)

[Verse]

D **F**
Come on down to the city at night

Bb **C**
And see how the people cry

D
Wish away the time

F
To the rhythm and rhyme

Bb **C**
Of a lifeless lullaby

D **F**
And everybody wants for something

Bb **C**
Everybody wants for more
D
Swimmin to the lands
F
Of the shimmerin sands
Bb **C**
And we drowned just off the shore

[Pre-chorus]

Bm **Bb**
All these voices sound the same
Bb **Bb** **C**
All that changes is the name

[Chorus]

Dm **F** **Bb** **C**
And I just wanna hear some music with some soul
Dm **F** **Bb** **C**
So many sheltered shades of grey
Dm **F** **Bb** **C**
I m not about to mourn the death of rock n roll
Dm **F** **Bb** **C**
Cast your broken shackles away

Dm **F**
And sing like you mean it
Bb **C**
Sing like you re feeling something
Dm **F**
And sing like you mean it
Bb **C**
Sing like you re feeling something

[Instrumental] (Same as intro)

Dm F F G
Dm F Bb C
Dm F F G Ab

[Verse]

D
Passing the hours
F
In the glittering towers
Bb **C**
As the valves begin to shred
D
Toppling down
F
On top of this town
Bb **C**
They scatter on a sea of red

D **F**
And everybody needs a detour

Bb **C**
To get off the same old road

D
Take a look around

F
Turn your radio down

Bb **C**
It s there in the lines of code

[Pre-chorus]

Bm **Bb**
All these voices blend to one

Bm **Bb** **C**
Add the minus, come to none

[Chorus]

Dm **F** **Bb** **C**
And I just wanna hear some music with some soul

Dm **F** **Bb** **C**
So many sheltered shades of grey

Dm **F** **Bb** **C**
I m not about to mourn the death of rock n roll
