```

```

Am                C
The mighty continents divided
      G                F
For a second time in all history
Am                C
They found themselves just floating
      G                F
Free from all responsibility
Am                C
Without the weight of being whole
      G                F
Some flew seaward all on their own
      Am
But if you want something back
      C
All the things that got cracked
      G                F
When I felt like you lied to me
      Am
And all the million mistakes
      C
And the kicks in the face
      G                F
But I don t want you to die in me
      Am
And when you say what you want
      C
That you need what you got
      G                F
Don t forget to be kind to me

Am                C                G                F

Am                C
Now here s an apple with a tougher skin
      G                F

```

While you've got your pretty scales and fins you say

Am **C**
See all the things that I can do

G **F**
So perfectly my body grew but in

Am **C**
All the time you felt so free

G **F**
Did you forget how much you once loved me

Am
And if you want something back

C
All the things that got cracked

G **F**
When I felt like you lied to me

Am
And all the million mistakes

C
And the kicks in the face

G **F**
But I don't want you to die in me

Am
So when you say what you want

C
That you need what you got

G **F**
Don't forget to be kind to me

G **F**
I don't want you to die in me
