

The Scarlet Pimpernel - When I Look At You
Misc Soundtrack

This is my first tab for this site. I tried to be a little fancy by trying to put my music theory skills into play. I didn't know how to do flats, so some chords may kinda weird. I hope this works, please let me know if you see anything funky or have better suggestions.

Thanks!

Intro:

G, B7(#5)/D#, Em, Em7/D, Cmaj7,
Dsus, D

Gmaj9 **Am7**
When I look at you, what I always see

Gmaj9 **Am7** **B7(#5)**
Is the face of someone else who once belonged to me.

Em7
Still I can hear him laugh

B7/D#5 **Em7/D** **A/C#** **Am7** **Am7/D** **D**
And even though that melody plays on, he's gone

Gmaj9 **Am7**
When I look at you, he is standing there

Gmaj9 **Am7** **B7(#5)**
I can almost breathe him in like summer in the air

Em7
Why do you smile his smile?

B7/D#5 **Em7/D** **A/C#** **Am7** **Am7/D** **D**
That heaven I'd forgotten eases through, in you

D **Am**
If you could look at me once more

Am7/D **Gmaj7**
With all the love you felt before

Cmaj7 **A/C#**

If you and I could disappear into the past

Em7/A **A**
And find that love we knew

Am9 **Fmaj9** **Am7/D** **D**
I d never take my eyes away from you

G **Am7/G**
When I look at you, he is touching me

G **G/B** **Cmaj7**
I would reach for him, but who can hold a memory?

B7 **Em7**
And love isn t everything

B7(#5)/D# **A/C#** **Am7** **C6/D**
That moonlight on the bed will melt away, someday

G **B7(#5)** **Em7**
Oh, you were once that someone

B7/D **Am7** **E7(#5)** **Am7** **Am7/D**
Who I followed like a_ star

G **B7** **Em7** **B7/D#**
Then suddenly you changed,

Em7/D **Am7** **E7(#5)** **Am7**
And now I don t know who you are

Am7/D **Cmaj7** **B7sus** **B7**
Or could it be that I never really

Em7 **Cm6**
knew you from the start?

G/D
Did I create a dream?

Am7/D
Was he a fantasy?

G **G/B** **Cmaj7** **Am7**
Even a memory is paradise for all the fools like me

G **Am7** **Em7** **A9**
Now, remembering is all that I can do

Am7 **G** **Cm6**
G(9)
Because I miss him so, when I look at you
