Misc Soundtrack

[Intro]

C F Am G (x2)

[Verse 1]

C

If you were here now, I wouldn't mind

F

That would be okay, baby that would be fine

Am **G**

But when you need the debt it'd go away

C

Walk with me for a while

F

I need your company, I need your smile

Am **G**

And it wouldn't matter if you cared to stay

F

It's a heart I should have loved her name

Am **G**

But I figured that you know I'm with ya

Em

A suffering that is chosen

Am **F**

A skin to tear me open again

F

But cool out baby please

Am **G**

No one likes it when you tease any further

[Chorus]

C

You know it baby all the things that you do

F

(Hey, Hey)

I like to think that honey I know them too

Am **G**

Forever alone but baby I do it with style
