Voodoo Night

A

Come ride with me

to a place of dark despair

Where we drown out our sorrows

And blank out all of our cares

[Chorus]

D **C**

Donâ€™t take the reins away from me

D **C**

Iâ€™ll take my chains away from you

A

Steel horses lay

all across the parking lot

Playing for shadows

just to see if they get what we got

CHORUS

A

A 36

An eerie mist of a screaming guitar

Some call it bliss

Others use it for a quick fix

[Chorus]

A

Singing to the demons

Trying to give them all nightmares

Singing to the angels

All they do is give us blank stares

[Chorus]

A

Waiting in the dark

Guess my eyes forgot to ignite

Fears start to spark

Just another voodoo night

[Chorus]
