Am G/B C x2

C **Am**
You see the sunday bird swinging low
C **Am**
And the fever in your brain only grows
F **C**
And the people dragging crosses down the streets
F **C**
See them put a child on the mercy seat
G **F** **C**
Hear the sound of the mightiest of guns

When the shadows run like ghosts across your room
Do you take your world and burn it in a spoon
A mercy ship to sail you off to sleep
To where the crimson angels swim the deep
But there's no hiding from the mightiest of guns

With every breath you drink in the night
Cause you won't give up your blues without a fight
And looking at the sky there is no pain
And the stars keep falling down like burning rain
They were fired by the mightiest of guns

Harmonica Solo (same pattern)

Tomorrow I am leaving for the pines
On a dancing bear I will dine
I'm laughing cause I know there ain't no sin
All the world on the head of a pin
Turning fast beneath the mightiest of guns
Turning fast beneath the mightiest of guns
