Bridge

```
G          C             G              A
Oh maybe one day all my foolishness will end

G          C             G              A
See that life has lead me on a different plan

G            C           G              A
But baby until that day I want you to know

      G            C                 G                A
