<b>Csus4</b>	<b>Esus4</b>
Sleepin	tight near your burning skin

You say come closer	
<b>G</b>	<b>C</b>
I wanna hold you harder	
<b>E</b>	<b>Am</b>
But the night is dying	
<b>E</b>	<b>Am</b>
I see the sun rising	

And then, again  
Starts another morning  
I leave the magic worlds  
To drown in these pearls  
Your eyes bring back to me  
My magic my eternity

<b>Csus4</b>
So Sybil and Ilsa,
<b>Esus4</b>
Who are held in Nadia
<b>Csus4</b>
Dorian and Richard
<b>Esus4</b>
Who stand on my side

<b>G</b>
Don t do the same
<b>C</b>

Mistakes once again

**G**

Don't let your fears

**C**

Leave you in tears

**E**

Have faith in your love

**Am**

As you have in God above

**E**

And you will feel the Light

**Am**

Clean you deepest fright

Couplet 2 :

Night after night I feel your soul

Merging with mine with no control

I savour this passion

And set free my emotion

I kinda disappear in you

Love our tender rendez-vous

In them my essence is revealed

My spirit is always healed

When I hold your waist

Your neck and I taste

The honey of your body

The satin of your skin

Refrain

Couplet 3 :

I have a dream where we found

The magic place where we belong

It looks like this reality

But with another way to see

Some new bewitching colours

The world in all its wonders

I've never felt so almighty

As when I'm close to Aphrodite

So let me confess

The reason of my bliss

My soul loves the soul of Nadia

I can't live without my Ghroubiya

Refrain
