LYRICS:

VERSE:

I saw you sitting in your fame Standing there without the slightest shame  
I wondered if I d ever know  
Who in the world would ever let you go  
I knew some things hadn t gone quite right  
That sometimes lifes just gonna bite  
But is it ok just to let it go  
in the is it true you ll always grow

CHORUS:

Never long I d go without you never long is stay away  
Never long had been out story never long is what you say  
(end of chorus)

VERSE 2:

This time again you lift your chin

You turn your back and my heart rates flat  
right then I find I ve lost my mind  
And you remind I was so so blind  
Never never long without you never never long i d go  
Never never I d forget you never never let you go  
A little voice can start some magic  
A little voice can fade away!  
Maybe if I but learned some logic  
Maybe you d keep me here to stay
