Artebe, Deadlocked (Dschungle Remix)

Am

On a cold December winter night

A7

It was misty, temperature low

E

He was sliding off an icy road

Am

Into woods covered with snow

G

He woke up dazed and confused

Am

Wiped some blood from his face

G

He was freezing and all alone

D

In this forsaken place

C

Where have I been, where am I to go?

E

He asked himself and wept

G

He turned on the radio

Am

Eerie silence, that night the whole world slept

C

Who am I, I just don't know

E

No one there to lead the way back home

G

He checked his face in the rear view mirror

And didn't recognize himself

F

He lost all his memories

A

It felt like screaming in a void

G

Ahh, yeah

D

Am

Screaming in a void

Am

Black smoke bellowed from the hood

A7

When he got out of the car

E

He heard a scream from far away

Am

And started wandering through the dark

G

And followed a trail of footsteps

Am

Suddenly he saw flashing red lights

G

A woman in a state of shock

D

Shivered, sat on the pavement in ripped tights

C

People's faces were so pale

E

As they stood there gazing at the scene

G

There was a car wreck and debris everywhere

Am

They covered up a man with a sheet white and clean

C

When he realized what he saw

E

He kneeled down and yelled out loud

G

He had worked his way through the crowd

And had a close look at the body

F

It was himself lying there dead

A

It felt like screaming in a void

G

Ahh, yeah

D
