Same old thing, what goes around comes around
I need your song it s a lonely, lonely night
Catch me if you can, touch me if you can
Go on a ride with me let s shoot the fucking stars and get real high

You start to sway, visions in your eyes

Something happening you haven't come to realize
It's coming over you my dear
You're just dreaming, don't have no fear

Same old thing, what goes around around comes around
I need your song it's a lonely, lonely night
Catch me if you can, touch me if you can
Go on a ride with me let's shoot the fucking stars and get real high

It is taking us higher
This bed is on fire
So are we

We have come a long way
Now we're here to stay
Forever maybe
