

**Asking For It - This Is How Im Gonna Live**  
**Misc Unsigned Bands**

The whole song just goes **C G F C**. I m sure you ll get it together.

Not quite sure what it all means but still somehow clear to me  
Screaming out into the night and coarse my throat one last time  
Fingers bleed, blood upon the frets, pass the whiskey to the left  
No place but here to be, I guess this is it for me

CHORUS:

It s not just a waste of time  
but a few good scars and a few good memories  
I ll do whatever I want  
Fuck the flag and fuck the cops  
Because this is how I m gonna live!!

My heart broken once or twice, but everything will be alright  
Just bring me bread and lemonade and you know I ll be ok  
Wherever we end up, your new boyfriend can still get fucked  
Sometimes it hurts to be alive, but I ll just get by

CHORUS!!

Not anything can stop us now, not anything can bring us down  
United through our beliefs, this is solidarity!  
I ll wave my black flag across the burning sand  
across the frozen sea, because THIS IS what I believe

CHORUS!! then end.
