Heres the lyrics-

I remember when I saw you shawty
You really had me going
You have me wanting you and loving you at first Sight
Tripping cause you distract me truly you make me happy
Wonder if what we have is what you call special

Girl I m here to hold you down, help me now, say it proud
I love you (you re my girl)
I love you (you re my girl)
When I m writing all alone, I call you on the phone
I love you (you re my girl)
I love you (you re my girl)

Girl I do adore you, put no one before you
You are what you call a beautiful creation
And I truly love you, always thinking of you
You are what you call a beautiful creation

I remember when our love was an A-track status
Now love is lavish, my girl she the baddest
Move to her love like we both playing mad then
La la la la. Mi amor, see me Spanish
Rocks and them rings, yeah the green be them cabbage
All for my baby like pampers and bottles
Girl you a model, a sign of perfection
Won over my heart, ain t no need for election
Perfect selection like ducks on a Friday
All I wanna do is take it slow, do it my way
Index down, thumb hold like sign lang-uage
It s C.E.B.
So dope like a feen on some P.C.P.
Make a nigga fall back like a G.E.D.
Flow hot, thick, wet, like it could escape the heat
How we so hip hop, yeah we R&B

Girl I do adore you put no one before you
You are what you call a beautiful creation
And I truly love you, always thinking of you
You are what you call a beautiful creation

I just can't leave you alone [x2]
No, baby, can't leave you alone[x2]
*repeat

[X2]
Girl I do adore you put no one before you
You are what you call a beautiful creation
And I truly love you, always thinking of you
You are what you call a beautiful creation
