Yeah. This song right here is for all the lovers out there  
What we want you to do is get real close

Verse :       **Ab**     **Gm**

Everyone wants to love someone  
They dont want to spend their night s alone  
Searching for the one to call their own  
We need to touch and be touched with love  
The days are hard and the nights seem so so long.  
But here tonight something unites us  
We ve got each other what more else could we want?  
Let s dance together until the last song stops

Pre Chorus :       **Cm**     **Bb**     **Gm**

Slowly closer than before  
Wanting you so much more

Chorus :       **Ab**     **Gm**     **Cm7**     **Bb**

This Thing Called Love it s a beautiful thing  
It can heal you or move a mountain or two  
This Thing called love it s a beautiful thing

Seeing You See In Me

Verse 2 : **Ab Gm**

Out on the dance floor bass beats pumping low  
Everyone s dancing now grooving to the stereo  
Lights dimmed down but we still see each other  
Everyone s around but we never lose each other  
I see you and you see me our eyes reveal infinite  
I never want to leave place to be with you in time and space  
Heaven must of sent me a lucky star  
Angel in white that s what you are  
Gorgeous if I had to say  
Spectacular in so many ways  
Now talking about the stars and the moon and the sun  
Where we re gonna go and where we re coming from  
When the stars alligned and revealed the truth  
It placed me here tonight with you
