Tabbed by LostAuthority - Lyrics F#rom metal-head.org

B **E** **B**
Oh here she comes, it s miss too good for everyone , Hot since the seventh
F# **B**
grade, mean as a snake in a knot
B **E** **B**
Not just some pretty girl, she s muy en fuego she knows it, she ought to,
F# **B**
she s told at least ten times a day
B **E** **B**
But let s look inside nothing but poison air blackened heart barely beats
F# **B**
blue blood throughout her facade
B **E** **B**
Thinks she owns the world, treats people badly, someone should take a stand,
F# **B** **E** **B** **F#**
Someone should tell her she s awful But not me, not me, Cause I think that I
B
might have a chance...
B **E**
Now I ll do things for you, just like the other guys.
B **F#**
Debase myself in the tragic hope that it will
B **E**
Make you desire me, through my obedience.
B **F#** **B**
What have you made me become and why don t I feel shame?
B **E** **B**
Yes I ll watch your dog, really no trouble at all
F# **B**
Yes, I ll help you move, into another man s house,
B **E**
Just remember I m always there in a pinch,
B **F#** **B**
Shoulder to cry on or possibly kiss on the mouth.
B **E** **B** **F#**
Let me buy you drinks, overpriced flavored martinis of various sizes, in so
B
many hues.
B **E** **B**
Yeah, I ll hold your purse, I ll just wait here then while you talk to that guy

F# **B**
 I guess I ll just look at my phone.

B **E** **B**
 Oh you re back again, Still looking hot as all hell and now you ve made a friend,

F# **B**
 Hello my rival young suitor, Good luck to you.

E **B** **F#** **B**
 See she s the devil and Satan s got perfectly toned abs and rocks a C-Cup.

B **E** **B**
 Listen men, someone has to destroy her be**F#**ore she grows stronger and

F# **B**
 decimates all of mankind.

B **E** **B**
 Someone hold her and shove a sharp stake through her heart, watch her turn to ash

F# **B** **E**
 Then we can live life again, free from tyranny, hot girl oppression, we ll

B
 end this obsession

F# **B**
 with all that is wrong with the world.

E **B**
 But not me, not me

F# **B**
 Though someone should tell her she s awful

E **B**
 But not me, not me

F# **B**
 Cause I still think I might have a chance.
