

**C S Martin - Cant Be Done**  
**Misc Unsigned Bands**

**C Am Em G**

I ve sailed across the ocean  
In search of a melody  
I ve tried to find the right words  
On the seven seas

I ve climbed the highest mountain  
To sing of your true love  
The only words to describe you  
Are from up above

A million years I d look for  
A song that i could write  
I m sitting here in this room  
Telling you tonight

CHORUS:

It can t be done  
To write the perfect song  
It can t be done  
Baby you re the one  
It can t be done  
Your love s reality  
It can t be done  
Just stay here with me

I hope and I dream for  
Only one small thing  
For that day when  
You ll wear my ring

A thousand stories  
Are written in your eyes  
When I fell for you  
It was no surprise

You are my reason  
To always come home  
There is just one thing  
For you to know

CHORUS:

It can t be done  
To write the perfect song  
It can t be done  
Baby you re the one

It can t be done  
Your love s reality  
It can t be done  
Just stay here with me

BRIDGE:

**Dm Am**

I ll search my whole life  
To tell you how to feel  
Whenever I m around you  
I get the urge to kneel

Whenever you come near me  
I forget all I ve known  
Three words are left in me  
For you to know

CHORUS:

It can t be done  
To write the perfect song  
It can t be done  
Baby you re the one  
It can t be done  
Your love s reality  
It can t be done  
Just stay here with me

**C** (sustain)

I ve sailed across the ocean

**Am** (sustain)

In search of a melody

**C** (sustain)

It can t be done
