

On your beautiful face

Chorus:

**Bm**

I fell on my knees then

**G**

I prayed that change would spare me

**D**

**A7**

And that I could stay, That I could stay

**D**

**G**

**D**

**A7**

The same, old way

**D**

The colors turn and turn back again

**G**

There's always something to believe in

**D**

But that's not what your searching for

**A7**

No, it's something more hidden

**D**

You could spend your life waiting round

**G**

Or you could finally up and leave this town

**D**

But that something just followed you

**A7**

No matter which road you go down

Chorus:

**Bm**

I fell on my knees then

**G**

I prayed that change would spare me

**D**

**A7**

And that I could stay, That I could stay

**D**

**G**

**D**

**A7**

The same, old way

**D**

If I go walking past the town signs

**G**

Further on down the highway

**D**

They'll be something waiting for me

**A7**

I'm not fooling myself again

**D**

You know I left this all behind

**G**

Long before you came across my mind

**D**

Nothing kept me from leaving that day

**A7**

But that day was nothing like today

Chorus:

**Bm**

I fell on my knees then

**G**

I prayed that change would spare me

**D**

**A7**

And that I could stay, That I could stay

**Bm**

I fell on my knees then

**G**

I prayed that change would spare me

**D**

**A7**

And that I could stay, That I could stay

**D**

**G**

**D**

**A7**

**D**

The same, old way
